SGE UAV Solution Pvt. Ltd.

Satellite Office

Sector 4, Plot 28, Dwarka

New Delhi 110078, India

+91 88511 63142

sgedrones@gmail.com

SGE HQ -

4 Mount Park Road,

London, UK W5 2RP

UAV OPTION – SGE WILL PROVIDE THE FOLLOWING OPTIONS BASED ON YOUR REQUIREMENTS –

PRICE	MODEL	CAMERA	BATTERY	ENDURANCE / FLIGHT TIME	TAKE-OFF WEIGHT	MAX ALTITUDE
INR 2,50,000 PACKAGE (EXCLUDING GST) & 1 Year Warranty + AMC	DJI MAVIC 2 THERMAL DUAL DRONE FLYMORE COMBO - REFURBISHED with SGE Guarantee	48MP, FLIR Lepton Thermal Microcamera with 1080P RGB Video Recoding: 4K Ultra HD	3000 MAH	30 MINS	909 Grams	3000 M

ACCESSORIES INCLUDED – 2 Batteries, 1 set propellers, Carry Bag, Attachment

Cables ACTUAL PRODUCT IMAGE –

PAYMENT TERMS – CASH / BANK TRANSFER/ UPI

DELIVERY DEADLINE – AT THE TIME OF PAYMENT

INCLUDED – REMOTE TECHNICAL SUPPORT, 3 MONTHS NON ACCIDENTAL PRODUCT WARRANTY & ANNUAL MAINTAINANCE CONTRACT

ADDITIONAL SERVICES AT EXTRA COST – SPARES, INSURANCE, ON-SITE TECHNICAL SUPPORT

Detailed Specs

- **FLIR Lepton thermal Microcamera**
- **31 Minute Flight Time**
- **Attachable Speaker, Spotlight, & Beacon (sold separately)**
- **Real Time Awareness of Manned Aircraft**
- **All Direction Obstacle Sensing**
- **Drone Password Protection**
- **24GB Onboard Storage**
- **Video Recoding: 4K Ultra HD**

key Features:

The Mavic 2 Enterprise Dual has both an infrared sensor and a standard camera. The infrared camera allows for temperature measurements to be taken at the center of the field of view. Each of these cameras can be viewed independently (just thermal or just 1080P RGB) or at the same time. FLIR (the infrared sensor manufacturer) calls the combination of the two feeds MSX (multispectral dynamic imaging). Why is FLIR MSX useful? FLIR MSX makes the outlines of structures, people, and flashlights from the visible spectrum easy to see while illuminating heat differences between objects. See in the image above the person standing in the door is visible in the infrared spectrum but not in the RGB image. If it was only a thermal image what floor he was on or which door he was in would not be visible. Having the ability to see both views allows the operator to get the benefits of both spectrums in one view!

Powerful Image Transmission & Timestamping

With OcuSync 2.0 the Mavic 2 Enterprise Dual can easily transmit 1080P video feed through solid walls. With a maximum transmission range of 5 miles the days of the video cutting out or losing connection are a thing of the past. GPS timestamping records the time, date, and GPS location of the images or videos taken in flight. This extra piece of data provides useful information on the locations of people, objects, or buildings in the images or videos captured.

Long Flight Time

Move with grace utilizing DJI's efficient propulsion system and minimal sound for up to 31 minutes of flight time. With a maximum speed of 44mph the Mavic 2 Enterprise Dual can keep up with targets on the move. With self warming batteries the Mavic 2 Enterprise Dual can take off even in cold environments, increasing the usability in cold weather conditions. In addition to better battery life the Mavic 2 Enterprise also has the new "Discrete Mode" function, allowing the user to turn off all aircraft LEDs for missions that require stealth mode flight.

Safety Awareness & Data Security

The Mavic 2 Enterprise Dual has an advanced obstacle sensing system. With a total of 10 sensors placed on the front, back, sides, upward, and downward the Mavic Enterprise Dual is aware of its surroundings. These sensors also determine the relative speed and distance between the drone and an object giving the operator more stability in confined spaces. In addition to the omnidirectional obstacle sensing system, the Mavic 2 Enterprise Dual is equipped with DJI AirSense which enhances airspace safety by giving instant real-time positioning alerts on nearby manned aircraft. In addition to increased drone awareness the new password protection login ensures secure access to your drones features and its 24GB of onboard storage, preventing data from getting into the wrong hands

Attachment Ready

The Mavic Enterprise line of attachments give even more usability to first responders. With the two screws and the micro usb connection port at the top of the drone easily connect one of the three attachments. These attachments work on both the Mavic 2 Enterprise and the Mavic 2 Enterprise Dual. Read more about the attachments below
